

## CFI Open Forum - New Airman Certification Standards

The FAA is preparing to implement the new Airman Certification Standards (ACS). All CFIs and pilots in training should become familiar with these new standards. We will have Mary Schu, a local DPE and instructor, presenting. She was one of the developers of the standards and, like all DPEs, will be using them for practical tests in the future. Come and learn what you will need to do to help your student prepare for this new system.

This forum is open to all pilots including Student Pilots

**Directions:** Fly-in participants can request taxi instructions to HAA from Hillsboro tower.

Those arriving by car should come to the south side of the Hillsboro airport on NE Cornell Road and turn into the airport at the NE 34th street traffic light

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
